MS PAINT INTRODUCTION

MS Paint ya **Microsoft Paint** ek simple drawing aur image editing software hai jo Microsoft Windows ke saath aata hai. Ye beginners ke liye bahut easy aur useful tool hai.

Main Features:

- **Drawing Tools:** Pencil, Brush, Line, Circle, Rectangle, Shapes etc.
- **Color Options:** Alag-alag colors use kar sakte ho.
- **Text Tool:** Image par text likh sakte ho.
- **Fill Tool:** Kisi shape ya area me color bhar sakte ho.
- **Eraser:** Galti ko mita sakte ho.
- **Zoom Tool:** Image ko bada ya chhota dekh sakte ho.
- **Selection Tool:** Image ka part select, move, crop ya resize kar sakte ho.

Uses:

- Simple drawing banana
- Image edit karna
- Photo par naam ya text likhna
- Basic computer graphics seekhna

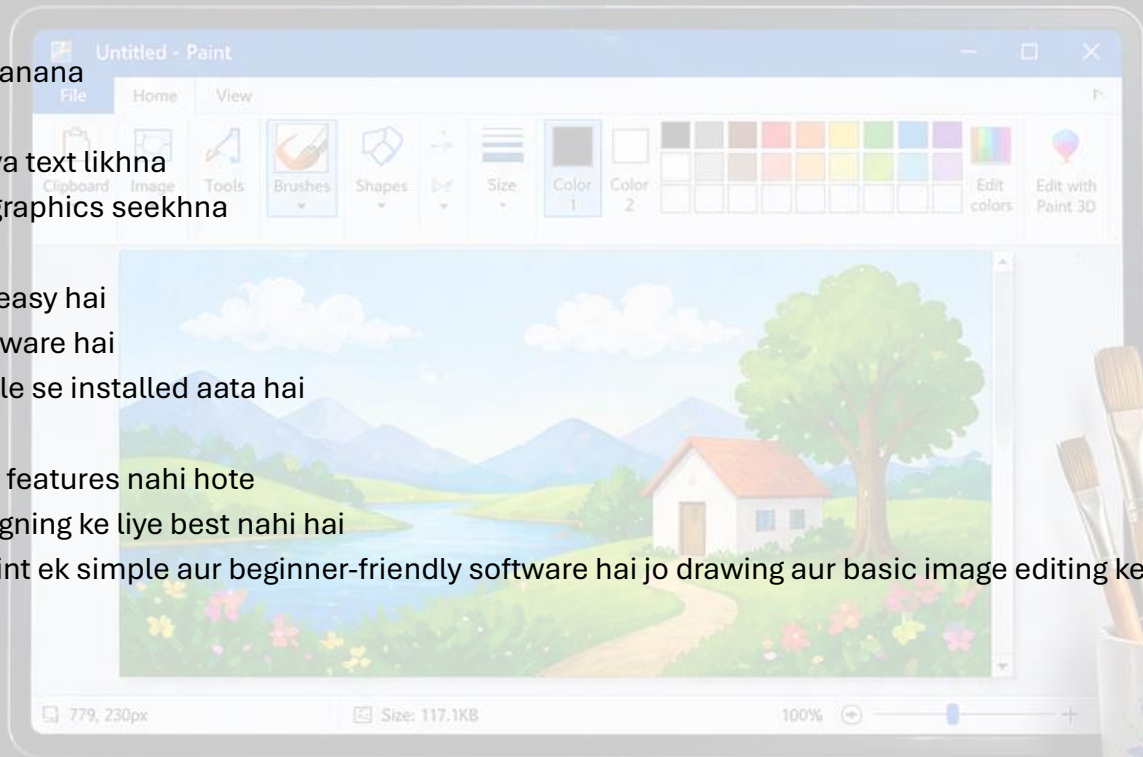

Advantages:

- Use karna bahut easy hai
- Fast aur light software hai
- Windows me pehle se installed aata hai

Limitations:

- Advanced editing features nahi hote
- Professional designing ke liye best nahi hai

Short me: MS Paint ek simple aur beginner-friendly software hai jo drawing aur basic image editing ke liye use hota hai.

HOME TAB

Color Options

- **Color 1** :- Left click se use hota hai. Ye **front color** hota hai.
- **Color 2** :- Right click se use hota hai. Ye **background color** hota hai.

Eraser

- **Eraser (Left Click)** :- Color 2 se erase karta hai.
- **Eraser (Right Click)** :- Color 1 ko Color 2 se replace kar deta hai.

Outline & Fill

- Ye option kisi bhi shape ko select karne ke baad highlight hota hai.
- **Use**: Shape ki outline aur fill color ko brush style me set karne ke liye hota hai.
- Fill color Color 2 par depend hota hai.

Shapes

- **Curve Shape** :- Ek line banti hai jisme 2 baar bend daal sakte hain.
- **Polygon Shape** :- Ek line banti hai, phir jahan click karte ho line wahan tak pahuch jaati hai.

Brush

- Yahan se alag-alag style ke brush select karke draw kar sakte hain.
- Jaise: **Crayon, Marker, Watercolor** etc.

Other Tools

- **Fill with Color** :- Shapes ke andar color fill karne ke liye.
- **Color Picker** :- Image me se color pick karne ke liye.
- **Magnifier** :- Work area ke kisi special part ko zoom karne ke liye.
- **Text** :- Work area me text likhne ke liye.

Text Formatting

- **Bold** :- Selected text ko dark karne ke liye (**Ctrl + B**)
- **Italic** :- Selected text ko tircha karne ke liye (**Ctrl + I**)

- **Underline** :- Selected text ke niche line lane ke liye (**Ctrl + U**)
- **Increase Font Size** :- Selected text ka size badhane ke liye (**Ctrl + Shift + >**)
- **Decrease Font Size** :- Selected text ka size chhota karne ke liye (**Ctrl + Shift + <**)

Background Options

- **Transparent** :- Text ke piche background color remove karne ke liye.
- **Opaque** :- Text ke piche background color add karne ke liye.

Image Editing Tools

- **Crop** :- Selected part ke alawa sab delete karne ke liye.
- **Resize** :- Selected part ya work area ka size chhota-bada karne ke liye (**Ctrl + Shift + X**)
- **Rotate** :- Selected part ya work area ko ghumane ke liye (**Ctrl + W**)

Selection Tool

Select :- Image ya work area ke kisi part ko select karne ke liye use hota hai. Selected part ko move, copy, cut, crop, resize ya rotate kar sakte hain.

Selection Shapes

- **Rectangular Selection** :- Chaukore ya rectangle shape me area select karne ke liye.
- **Free-form Selection** :- Kisi bhi random/custom shape me area select karne ke liye.

Selection Options

- **Select All** :- Puri image ya work area ko ek saath select kar deta hai. (**Ctrl + A**)
- **Invert Selection** :- selected part ke bahar ke part ko select karne ke liye
- **Delete** :- Selected part ko delete karne ke liye. (**Del**)
- **Transparent Selection** :- Selected part me se **color 2** me jo color hai usko chhodke sabhi colors pick karne ke liye. (shapes ka background color hatane ke liye)

Clipboard Options

Paste

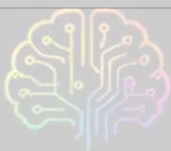

- **Paste** :- Copy ya Cut kiya hua part/image ko work area me lane ke liye. (**Ctrl + V**)
- **Cut** :- Selected part ko hata kar clipboard me bhej deta hai. Dusri jagah paste kar sakte hain. (**Ctrl + X**)
- **Copy** :- Selected part ki duplicate copy clipboard me save karta hai. Original wahi rehta hai. (**Ctrl + C**)

Use of Paste

- Kisi image ka copied part dusri jagah chipka sakte hain.
- Text, shape ya object ko multiple baar paste kar sakte hain.
- Cut karke ek jagah se dusri jagah move kar sakte hain.

Important Note

- Paste karne ke baad object ko move, resize, rotate ya delete bhi kar sakte hain.
- Agar clipboard me kuch copy nahi hai to Paste work nahi karega.

FILE TAB

- **New** :- Naya blank file / drawing page kholne ke liye use hota hai. (**Ctrl + N**)
- **Open** :- Pehle se saved image ya file kholne ke liye use hota hai. (**Ctrl + O**)
- **Save** :- Current file ko save karne ke liye. Agar pehli baar save kar rahe ho to naam aur location puchta hai. (**Ctrl + S**)
- **Save As** :- Saved file me kiye gay changes ko naye naam, naye format ya naye location me save karne ke liye.
- **Print** :- Image ya drawing ko print karne ke liye use hota hai. (**Ctrl + P**)
- **From Scanner or Camera** :- Scanner ya camera se image import karne ke liye.
- **Send in Email** :- Image ko email ke through bhejne ke liye use hota hai.
- **Set as Desktop Background** :- Current image ko computer wallpaper/background banane ke liye.
- **Properties** :- Image ki width, height, unit, black & white / color setting dekhne ya change karne ke liye. (**Ctrl + E**)
- **About Paint** :- MS Paint software ki information, version aur details dekhne ke liye.

VIEW TAB

Zoom Options

- **Zoom In** :- Image ya drawing ko bada karke dekhne ke liye use hota hai.
- **Zoom Out** :- Image ya drawing ko chhota karke dekhne ke liye use hota hai.
- **100%** :- Image ko normal/original size me dikhata hai.

Show or Hide

- **Rulers** :- Work area ke upar aur side me measurement scale dikhane ke liye.
- **Gridlines** :- Work area me chhote boxes/grid lines dikhane ke liye, jisse drawing sahi bane.
- **Status Bar** :- Niche wali bar show/hide karne ke liye, jisme size, position aur zoom info dikhti hai.

Display

- **Full Screen** :- MS Paint ko full screen mode me chalane ke liye. (**F11**)
- **Thumbnail** :- Chhoti preview screen dikhata hai, jisse bade image me easily move kar sakein.

SHORTCUT KEYS

File aur Basic Operations
