The Artificial Education

MS WORD INTRODUCTION

MS Word (Microsoft Word) ek powerful word processing software hai jo Microsoft Office ka part hai. Iska use letters, documents, resumes, reports aur professional files banane ke liye hota hai. Ye duniya me sabse zyada use hone wale document software me se ek hai.

Main Features

- Text typing aur editing kar sakte hain.
- Font style, size aur color change kar sakte hain.
- Bold, Italic, Underline use kar sakte hain.
- Tables, pictures, shapes insert kar sakte hain.
- Page layout aur margins set kar sakte hain.
- Spell check aur grammar check milta hai.
- Header, Footer aur Page Number laga sakte hain.
- Print aur PDF save kar sakte hain.

Uses

- Letter likhne ke liye
- Resume banane ke liye
- Project report banane ke liye
- Office documents banane ke liye
- Books aur notes type karne ke liye
- Invitation aur certificates banane ke liye

Advantages

- Professional documents banane ke liye best hai.
- Bahut saare advanced tools milte hain.
- Easy formatting aur designing hoti hai.
- Office aur school dono jagah useful hai.

Limitations

- Paid software ho sakta hai (version ke hisaab se).
- Beginners ko shuru me thoda complex lag sakta hai.

Short Note

MS Word ek advanced word processor hai jo professional documents create, edit aur format karne ke liye use hota hai.

Random paragraph insert karne ke liye :- =rand() +enter
=rand(3,5) 3 paragraph unme 5 line insert karne ke

The Artificial Education

FILE OPTIONS

- **Home** :- Main editing screen par wapas jane ke liye.
- **New** :- Naya blank document ya template kholne ke liye. (**Ctrl + N**)
- **Open** :- Pehle se saved document kholne ke liye. (**Ctrl + O**)
- **Share** :- Document ko dusron ke saath share karne ke liye.
- **Info** :- Document ki properties, size, author aur protection details dekhne ke liye.
- **Save** :- Current document save karne ke liye. (**Ctrl + S**)
- **Save As** :- Saved Document ko naye naam, naye format ya nayi location me save karne ke liye. (**F12**)
- **Print** :- Document print karne ke liye. (**Ctrl + P**)
- **Export** :- Document ko PDF ya dusre format me convert/save karne ke liye.
- **Close** :- Current document band karne ke liye. (**Ctrl + W**)

HOME TAB

CLIPBOARD GROUP

- **Paste** :- Copy ya Cut kiya hua text/object document me chipkane ke liye. (**Ctrl + V**)
- **Cut** :- Selected text/object ko hata kar clipboard me bhejne ke liye. (**Ctrl + X**)
- **Copy** :- Selected text/object ki copy clipboard me save karne ke liye. (**Ctrl + C**)
- **Format Painter** :- Ek text ki formatting dusre text par apply karne ke liye.
 - ✓ **Format copy** :- alt+ctrl+c & ctrl+shift+c
 - ✓ **Format paste** :- alt+ctrl+v & ctrl+shift+v
- **Clipboard Dialog Box Launcher** :- Copy kiye gay sabhi text dekhne ke liye.

FONT BOX

- **Font Name** :- Text ki writing style change karne ke liye. (Jaise Aptos, Calibri, Arial)
- **Font Size** :- Selected Text ka size chhota ya bada karne ke liye.
- **Increase Font Size** :- Selected Text size bada ke liye. (**Ctrl + Shift + >**)
- **Decrease Font Size** :- Selected Text size chhota karne ke liye. (**Ctrl + Shift + <**)
- **Change Case** :- Selected Text ko UPPERCASE, lowercase ya Sentence case me badalne ke liye.
- **Clear All Formatting** :- Selected Text ki sari formatting hata kar normal karne ke liye.
- **Bold** :- Selected text ko mota/dark karne ke liye. (**Ctrl + B**)
- **Italic** :- Selected text ko tircha karne ke liye. (**Ctrl + I**)
- **Underline** :- Selected text ke niche line lane ke liye. (**Ctrl + U**)
- **Strikethrough** :- Selected Text ke beech line lane ke liye.
- **Subscript** :- Selected Text ko niche chhota dikhane ke liye. (**Ctrl + =**)
- **Superscript** :- Selected Text ko upar chhota dikhane ke liye. (**Ctrl + Shift + +**)
- **Text Effects** :- Selected Text me shadow, glow aur style effects lagane ke liye.
- **Text Highlight Color** :- Selected Text ke piche highlight color lagane ke liye.

- **Font Color** :- Selected Text ka color change karne ke liye.
- **Font Dialog Box Launcher** :- Font ki extra settings kholne ke liye.

PARAGRAPH GROUP

- **Bullets** :- Paragraph ke aage bullet points lagane ke liye.
- **Numbering** :- Paragraph ke aage numbering (1,2,3...) lagane ke liye.
- **Multilevel List** :- Different levels wali list banane ke liye. (list ke ander list)
 - ✓ **Increase level** :- tab
 - ✓ **Decrease level** :- shift+tab
- **Decrease Indent** :- Paragraph ko left side lane ke liye.
- **Increase Indent** :- Paragraph ko right side shift karne ke liye.
- **Sort** :- Paragraph ya list ko A to Z / Z to A arrange karne ke liye.
- **Show/Hide (¶)** :- Hidden symbols jaise space, enter, tab marks dikhane ke liye.
- **Align Left** :- Paragraph ko left side me lane ke liye. (**Ctrl + L**)
- **Center** :- Paragraph ko beech me lane ke liye. (**Ctrl + E**)
- **Align Right** :- Paragraph ko right side me lane ke liye. (**Ctrl + R**)
- **Justify** :- Paragraph ke dono side se line equal set karne ke liye. (**Ctrl + J**)
- **Line and Paragraph Spacing** :- Lines aur paragraphs ke beech distance set karne ke liye.
- **Shading** :- Selected paragraph ke background me color lagane ke liye.
- **Borders** :- Paragraph ya text ke around border lagane ke liye.
- **Paragraph Dialog Box Launcher** :- Paragraph ki extra settings kholne ke liye.

STYLES GROUP

- **Normal** :- Simple normal text style apply karne ke liye.
- **No Spacing** :- Text me extra paragraph spacing hataane ke liye.
- **Heading 1** :- Main heading banane ke liye.
- **Heading 2** :- Sub heading banane ke liye.
- **Heading 3** :- Chhoti sub heading banane ke liye.
- **Title** :- Document ka main title likhne ke liye special style.
- **Subtitle** :- Title ke niche chhota heading style dene ke liye.
- **More Styles (▼)** :- Aur bhi styles dekhne aur apply karne ke liye.
- **Styles Dialog Box Launcher** :- Styles ki extra settings kholne ke liye.

EDITING GROUP

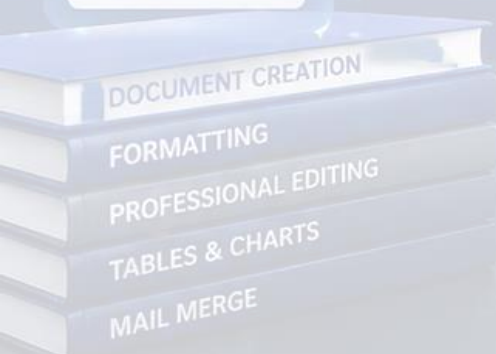

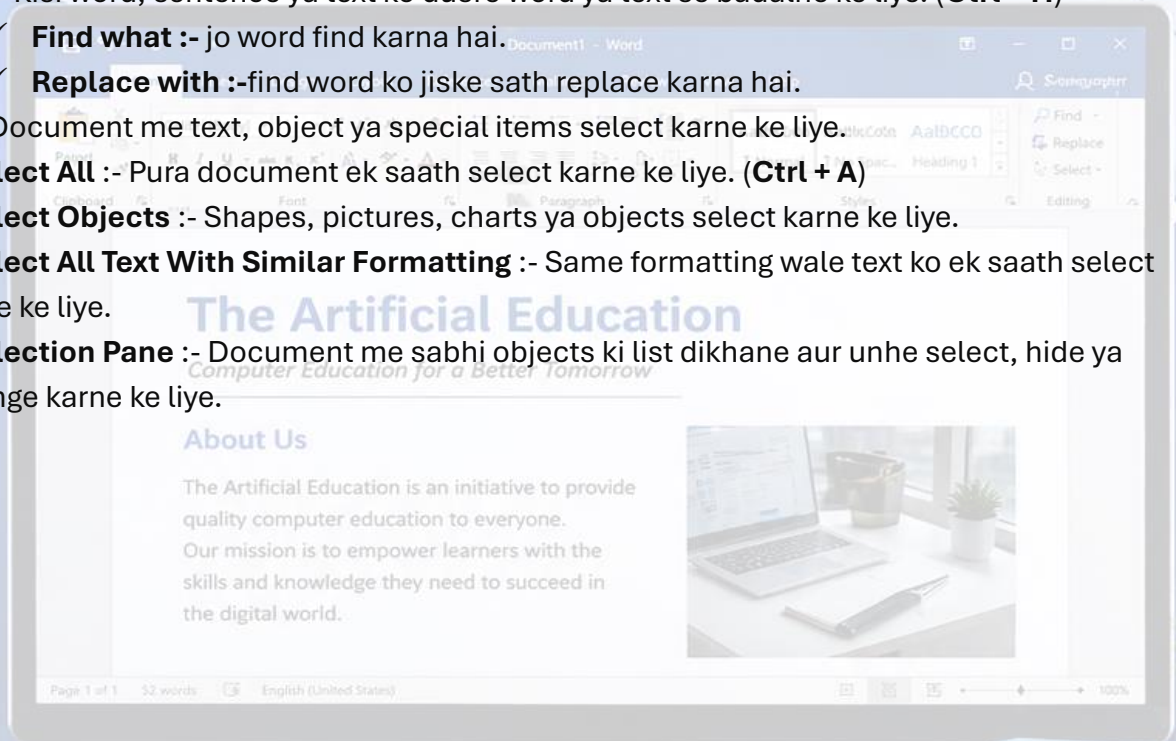

- **Find** :- Document me kisi word, line ya sentence ko dhoondhne ke liye. (**Ctrl + F**)
- **Advanced Find** :- Advanced options ke saath search karne ke liye. (Format, special text etc.)
- **Search: All** :- Pura document me search karne ke liye.
- **Match Case** :- Same capital aur small letters ke hisaab se word dhoondhne ke liye.
- **Find Whole Words Only** :- Sirf poora word dhoondhne ke liye, uske andar ke letters nahi.
- **Use Wildcards** :- Pattern ke hisaab se search karne ke liye.
- **Sounds Like (English)** :- Similar pronunciation wale words dhoondhne ke liye.

- **Find All Word Forms (English) :-** Same root ke alag forms dhoondhne ke liye. (Run, Running, Ran)
- **Match Prefix :-** Same shuru hone wale words dhoondhne ke liye.
- **Match Suffix :-** Same ending wale words dhoondhne ke liye.
- **Ignore Punctuation Characters :-** Search me punctuation marks ignore karne ke liye.
- **Ignore White-space Characters :-** Search me extra spaces ignore karne ke liye.

Find Options

- **Format :-** Specific formatting wala text dhoondhne ke liye. (Bold, Font color etc.)
- **Special :-** Special characters ya symbols dhoondhne ke liye.
- **No Formatting :-** Search se formatting filter hataane ke liye.
- **Go To :-** Kisi specific page, line, section ya bookmark par jane ke liye. (**Ctrl + G**)
- **Replace :-** Kisi word, sentence ya text ko dusre word ya text se badalne ke liye. (**Ctrl + H**)
- ✓ **Find what :-** jo word find karna hai.
- ✓ **Replace with :-** find word ko jiske sath replace karna hai.
- **Select :-** Document me text, object ya special items select karne ke liye.
- **Select All :-** Pura document ek saath select karne ke liye. (**Ctrl + A**)
- **Select Objects :-** Shapes, pictures, charts ya objects select karne ke liye.
- **Select All Text With Similar Formatting :-** Same formatting wale text ko ek saath select karne ke liye.
- **Selection Pane :-** Document me sabhi objects ki list dikhane aur unhe select, hide ya arrange karne ke liye.

INSERT TAB

PAGES GROUP

- **Cover Page** :- Document ke starting me ready-made attractive title page insert karne ke liye.
- **Blank Page** :- Cursor ke baad ek naya blank page insert karne ke liye.
- **Page Break** :- Current page ke baad naya page start karne ke liye. (**Ctrl + Enter**)

TABLES GROUP

Learn Document Creation, Formatting and Professional Editing using MS Word

- **Insert Table** :- Rows aur columns select karke table insert karne ke liye.
- **Insert Table...** :- Manually rows aur columns number dekar table banane ke liye.

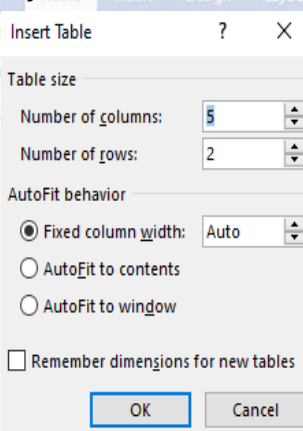

Table Size

- **Number of Columns** :- Table me vertical columns ki sankhya set karne ke liye.

- **Number of Rows** :- Table me horizontal rows ki sankhya set karne ke liye.

AutoFit Behavior

- **Fixed Column Width** :- Columns ki width manually fix karne ke liye.

- **Auto** :- Column width automatic set karne ke liye.
- **AutoFit to Contents** :- Text ke according column width automatic adjust karne ke liye.
- **AutoFit to Window** :- Page/window ke according table width fit karne ke liye.
- **Remember Dimensions for New Tables** :- Future me nayi tables ke liye same size rakhne ke liye.
- **OK** :- Table insert karne ke liye.
- **Cancel** :- Dialog box band karne ke liye.

- **Draw Table** :- Mouse se table draw karne ke liye.
- **Convert Text to Table...** :- Selected text ko table me convert karne ke liye.
- **Excel Spreadsheet** :- Document ke andar Excel sheet insert karne ke liye.
- **Quick Tables** :- Ready-made table templates insert karne ke liye.

learn computer, control your future

TABLE DESIGN TAB

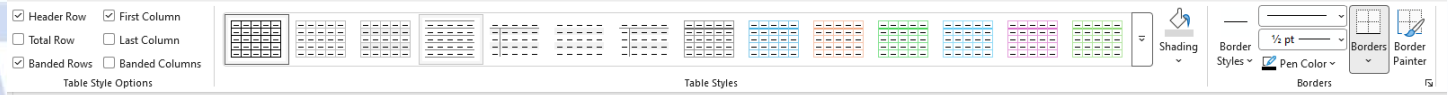

Table me color, border change karne ke liye use hota hai. (Agar table me cursor nahi he to nahi dikhega)

TABLE STYLE OPTIONS

- **Header Row** :- Table ki first row ko heading style dene ke liye.
- **Total Row** :- Last row ko total/show summary row banane ke liye.
- **First Column** :- First column ko special highlight style dene ke liye.
- **Last Column** :- Last column ko special highlight style dene ke liye.
- **Banded Rows** :- Alternate rows me different color style dene ke liye.
- **Banded Columns** :- Alternate columns me different color style dene ke liye.

NOTE:- Ye option table me style lagane ke baad work karta hai.

TABLE STYLES

- **Table Styles Gallery** :- Ready-made table designs apply karne ke liye.
- **More Styles (▼)** :- Aur bhi table styles dekhne ke liye.

DRAW BORDERS GROUP

- **Shading** :- Selected cells ya table ke background me color bharne ke liye.

BORDERS GROUP

- **Border Styles** :- Border ki line style change karne ke liye. (Single, Double, Dashed etc.)
- **Line Weight (½ pt)** :- Border line ki motai/thickness set karne ke liye.
- **Pen Color** :- Border line ka color change karne ke liye.
- **Borders** :- Table ya selected cells par border lagane, hataane ya style apply karne ke liye.
- **Border Painter** :- Mouse se manually border draw ya apply karne ke liye.

NOTE:- Jo line weight, style or color border set kiya gaya hai border painter se vahi style ayga.

TABLE LAYOUT TAB

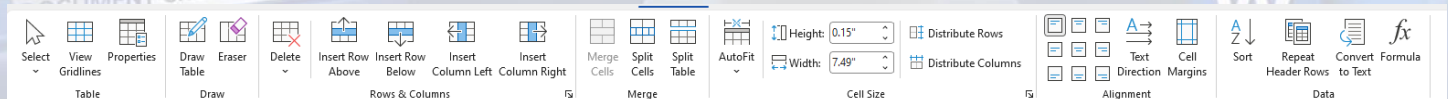

Table me se kuch delete, column/row ki width height change, cells ko merge act. Karne ke liye.

TABLE GROUP

- **Select** :- Table, row, column ya cell select karne ke liye.
- **View Gridlines** :- Table ki invisible lines dikhane ke liye. Print me ye lines show nahi hoti.

- **Properties** :- Table ki settings kholne ke liye. Isme size, alignment, row height, column width aur text wrapping set kar sakte hain.

DRAW GROUP

- **Draw Table** :- Mouse ki help se manually table draw karne ke liye.
- **Eraser** :- Table ki lines, rows, columns ya cells ko hataane ke liye.

ROWS & COLUMNS GROUP

- **Delete** :- Selected row, column, cell ya poori table delete karne ke liye.
- **Insert Row Above** :- Selected row ke upar nayi row insert karne ke liye.
- **Insert Row Below** :- Selected row ke niche nayi row insert karne ke liye.
- **Insert Column Left** :- Selected column ke left side naya column insert karne ke liye.
- **Insert Column Right** :- Selected column ke right side naya column insert karne ke liye.

MERGE GROUP

- **Merge Cells** :- Do ya zyada selected cells ko jodkar ek cell banane ke liye.
- **Split Cells** :- Ek cell ko multiple rows ya columns me todne ke liye.
- **Split Table** :- Table ko do alag tables me divide karne ke liye.

CELL SIZE GROUP

- **AutoFit** :- Content ya page ke according column size automatic adjust karne ke liye.
- **Height** :- Row ki unchai set karne ke liye.
- **Width** :- Column ki chaudai set karne ke liye.
- **Distribute Rows** :- Sabhi selected rows ki equal height karne ke liye.
- **Distribute Columns** :- Sabhi selected columns ke equal width karne ke liye.

ALIGNMENT GROUP

- **Top Left** :- Text ko cell ke upar left side me lane ke liye.
- **Top Center** :- Text ko cell ke upar beech me lane ke liye.
- **Top Right** :- Text ko cell ke upar right side me lane ke liye.
- **Middle Left** :- Text ko cell ke beech left side me lane ke liye.
- **Middle Center** :- Text ko cell ke bilkul center me lane ke liye.
- **Middle Right** :- Text ko cell ke beech right side me lane ke liye.
- **Bottom Left** :- Text ko cell ke niche left side me lane ke liye.
- **Bottom Center** :- Text ko cell ke niche beech me lane ke liye.
- **Bottom Right** :- Text ko cell ke niche right side me lane ke liye.
- **Text Direction** :- Text ko vertical ya rotate direction me karne ke liye.
- **Cell Margins** :- Cell ke andar text aur border ke beech space set karne ke liye.

DATA GROUP

- **Sort** :- Table column ke data ko A to Z, Z to A ya number order me arrange karne ke liye.

• **Repeat Header Rows** :- Har page par heading row repeat dikhane ke liye. (Agar table multiple pages ki hai to is option ka use hoga)

• **Convert to Text** :- Table ko simple text me badalne ke liye.

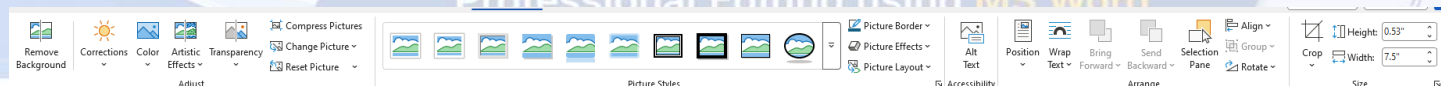

• **Formula** :- Table ke andar calculation karne ke liye. (Sum, Average etc.)

- ✓ =sum(above) :-selected cell ke upar vali cells ke numbers ko jodne ke liye.
- ✓ =sum(left) :-selected cell ke left side vali cells ke numbers ko jodne ke liye.
- ✓ =sum(right) :-selected cell ke right side vali cells ke numbers ko jodne ke liye.

ILLUSTRATIONS GROUP

Pictures :- Computer ya device se image insert karne ke liye.

PICTURE FORMAT TAB

(Agar Picture select nahi he to nahi dikhega)

ADJUST GROUP

- **Remove Background** :- Picture ka background hataane ke liye.
- **Corrections** :- Picture ki brightness, sharpness aur contrast adjust karne ke liye.
- **Color** :- Picture ka color tone, saturation aur recolor change karne ke liye.
- **Artistic Effects** :- Picture par artistic effects lagane ke liye.
- **Transparency** :- Picture ko transparent banane ke liye.
- **Compress Pictures** :- Picture ka size kam karke file size reduce karne ke liye.
- **Change Picture** :- Current picture ko dusri picture se replace karne ke liye.
- **Reset Picture** :- Picture par lagaye gaye changes hata kar original me lane ke liye.

PICTURE STYLES GROUP

- **Picture Styles Gallery** :- Ready-made picture frame aur style apply karne ke liye.
- **More Styles (▼)** :- Aur bhi picture styles dekhne ke liye.
- **Picture Border** :- Picture ke around border lagane ke liye.
- **Picture Effects** :- Shadow, reflection, glow jaise effects lagane ke liye.
- **Picture Layout** :- Picture ko SmartArt style layout me convert karne ke liye.

ACCESSIBILITY GROUP

- **Alt Text** :- Picture ke liye description add karne ke liye, screen reader users ke liye useful hota hai.

ARRANGE GROUP

- **Position** :- Picture ki page par fixed position set karne ke liye.
- **Wrap Text** :- Picture ke around text kaise aaye ye set karne ke liye.

- **In Line with Text** :- Picture ko text ki line ka hissa bana deta hai, jaise ek character.
- **Square** :- Picture ke chaaro taraf square shape me text aata hai.
- **Tight** :- Picture ke shape ke close text wrap hota hai.
- **Through** :- Picture ke irregular shape ke andar-bahar text flow hota hai.
- **Top and Bottom** :- Picture ke sirf upar aur niche text aata hai.
- **Behind Text** :- Picture ko text ke peeche bhej deta hai.
- **In Front of Text** :- Picture ko text ke upar la deta hai.
- **Edit Wrap Points** :- Text wrapping points manually set karne ke liye.
- **Move with Text** :- Text move hone par picture bhi saath move hoti hai.
- **Fix Position on Page** :- Picture ko page par ek fixed jagah lock karne ke liye.
- **More Layout Options** :- Advanced layout aur positioning settings kholne ke liye.
- **Set as Default Layout** :- Current wrap setting ko default banane ke liye.

- **Bring Forward** :- Picture ko dusre object ke aage lane ke liye.
- **Send Backward** :- Picture ko dusre object ke peeche bhejne ke liye.
- **Selection Pane** :- Sabhi objects ki list dikhane aur select/hide karne ke liye.
- **Align** :- Multiple objects ko line me set karne ke liye.
- **Group** :- Multiple objects ko ek saath jodne ke liye.

Multiple object select karne ke baad work karta hai

- **Rotate** :- Picture ko ghumane ya flip karne ke liye.

SIZE GROUP

- **Crop** :- Picture ka extra hissa kaatne ke liye.
- **Height** :- Picture ki unchai set karne ke liye.
- **Width** :- Picture ki chaudai set karne ke liye.

Shapes :- Ready-made shapes jaise line, rectangle, arrow, circle insert karne ke liye.

SHAPES FORAMT

INSERT SHAPES GROUP

- **Shapes Gallery** :- Ready-made shapes jaise line, rectangle, arrow, circle insert karne ke liye.
- **Edit Shape** :- Shape ko change ya points edit karne ke liye.
- **Draw Text Box** :- Custom text box draw karne ke liye.

SHAPE STYLES GROUP

- **Shape Styles Gallery** :- Ready-made shape styles apply karne ke liye.
- **Shape Fill** :- Shape ke andar color, gradient ya picture fill karne ke liye.
- **Shape Outline** :- Shape ki border line ka color, thickness aur style change karne ke liye.
- **Shape Effects** :- Shadow, glow, reflection, bevel jaise effects lagane ke liye.

learn computer, control your future

WORDART STYLES GROUP

- **Text Fill** :- Shape ke andar text ka color fill karne ke liye.
- **Text Outline** :- Text ki border line lagane ke liye.
- **Text Effects** :- Text par shadow, glow, transform effects lagane ke liye.

TEXT GROUP

- **Text Direction** :- Text ko rotate ya vertical direction me karne ke liye.
- **Align Text** :- Shape/Text Box ke andar text alignment set karne ke liye.
- **Create Link** :- text box agar text se full ho jata hai to text box ko dusre text box se link karke baki ka text us linked text box me dalne ke liye

ARRANGE GROUP

- **Position** :- shapes ki page par fixed position set karne ke liye.
- **Wrap Text** :- shapes ke around text kaise aaye ye set karne ke liye.
 - **In Line with Text** :- shapes ko text ki line ka hissa bana deta hai, jaise ek character.
 - **Square** :- shapes ke chaaro taraf square shape me text aata hai.
 - **Tight** :- shapes ke shape ke close text wrap hota hai.
 - **Through** :- shapes ke irregular shape ke andar-bahar text flow hota hai.
 - **Top and Bottom** :- shapes ke sirf upar aur niche text aata hai.
 - **Behind Text** :- shapes ko text ke peeche bhej deta hai.
 - **In Front of Text** :- shapes ko text ke upar la deta hai.
 - **Edit Wrap Points** :- Text wrapping points manually set karne ke liye.
 - **Move with Text** :- Text move hone par picture bhi saath move hoti hai.
 - **Fix Position on Page** :- shapes ko page par ek fixed jagah lock karne ke liye.
 - **More Layout Options** :- Advanced layout aur positioning settings kholne ke liye.
 - **Set as Default Layout** :- Current wrap setting ko default banane ke liye.
- **Bring Forward** :- shapes ko dusre object ke aage lane ke liye.
- **Send Backward** :- shapes ko dusre object ke peeche bhejne ke liye.
- **Selection Pane** :- Sabhi objects ki list dikhane aur select/hide karne ke liye.
- **Align** :- Multiple objects ko line me set karne ke liye.
- **Group** :- Multiple objects ko ek saath jodne ke liye.

Multiple object select karne ke baad work karta hai

- **Rotate** :- shapes ko ghumane ya flip karne ke liye.

SIZE GROUP

- **Crop** :- shapes ka extra hissa kaatne ke liye.
- **Height** :- shapes ki unchai set karne ke liye.
- **Width** :- shapes ki chaudai set karne ke liye.

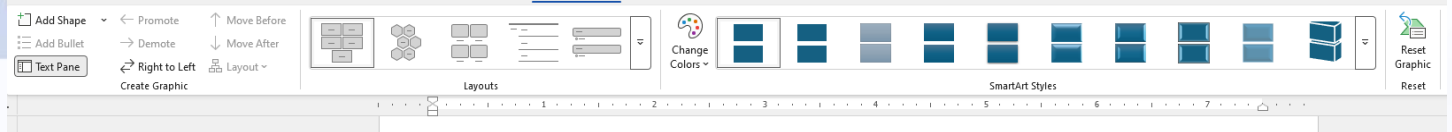

Icons :- Ready-made icons insert karne ke liye.

3D Models :- 3D objects ya models insert karne ke liye.

SmartArt :- Diagrams, process chart, hierarchy aur graphics banane ke liye.

SMARTART DESIGN

CREATE GRAPHIC GROUP

- **Add Shape :-** SmartArt me naya shape add karne ke liye.
- **Add Bullet :-** parts banana ke liye
- **Text Pane :-** SmartArt ka text panel show/hide karne ke liye.
- **Promote :-** Selected point ko upar level par lane ke liye.
- **Demote :-** Selected point ko niche level par lane ke liye.
- **Right to Left :-** SmartArt ka direction right se left karne ke liye.
- **Move Before :-** Selected shape ko pehle position par lane ke liye.
- **Move After :-** Selected shape ko baad ki position par bhejne ke liye.
- **Layout :-** SmartArt ka arrangement/layout change karne ke liye.

LAYOUTS GROUP

- **Layouts Gallery :-** SmartArt ke alag-alag layouts choose karne ke liye.

SMARTART STYLES GROUP

- **Change Colors :-** SmartArt ke colors change karne ke liye.
- **SmartArt Styles Gallery :-** Ready-made SmartArt styles apply karne ke liye.
- **More Styles (▼) :-** Aur bhi SmartArt styles dekhne ke liye.

RESET GROUP

- **Reset Graphic :-** SmartArt ko original/default style me lane ke liye.

SMARTART FORMAT TAB

SHAPES GROUP

- **Edit in 2-D :-** Shape ko normal 2D mode me edit karne ke liye.
- **Change Shape :-** Current shape ko kisi dusri shape me change karne ke liye.
- **Larger :-** Shape ka size bada karne ke liye.

- **Smaller** :- Shape ka size chhota karne ke liye.

SHAPE STYLES GROUP

- **Shape Styles Gallery** :- Ready-made shape styles apply karne ke liye.
- **Shape Fill** :- Shape ke andar color, gradient ya picture fill karne ke liye.
- **Shape Outline** :- Shape ki border line ka color, thickness aur style change karne ke liye.
- **Shape Effects** :- Shadow, glow, reflection, bevel jaise effects lagane ke liye.

WORDART STYLES GROUP

- **Text Fill** :- Shape ke andar text ka color fill karne ke liye.
- **Text Outline** :- Text ki border line lagane ke liye.
- **Text Effects** :- Text par shadow, glow, transform effects lagane ke liye.

TEXT GROUP

- **Text Direction** :- Text ko rotate ya vertical direction me karne ke liye.
- **Align Text** :- Shape/Text Box ke andar text alignment set karne ke liye.
- **Create Link** :- text box agar text se full ho jata hai to text box ko dusre text box se link karke baki ka text us linked text box me dalne ke liye

ARRANGE GROUP

- **Position** :- shapes ki page par fixed position set karne ke liye.
- **Wrap Text** :- shapes ke around text kaise aaye ye set karne ke liye.
 - **In Line with Text** :- shapes ko text ki line ka hissa bana deta hai, jaise ek character.
 - **Square** :- shapes ke chaaro taraf square shape me text aata hai.
 - **Tight** :- shapes ke shape ke close text wrap hota hai.

 - **Top and Bottom** :- shapes ke sirf upar aur niche text aata hai.
 - **Behind Text** :- shapes ko text ke peeche bhej deta hai.
 - **In Front of Text** :- shapes ko text ke upar la deta hai.
- **Edit Wrap Points** :- Text wrapping points manually set karne ke liye.
- **Move with Text** :- Text move hone par picture bhi saath move hoti hai.
- **Fix Position on Page** :- shapes ko page par ek fixed jagah lock karne ke liye.
- **More Layout Options** :- Advanced layout aur positioning settings kholne ke liye.
- **Set as Default Layout** :- Current wrap setting ko default banane ke liye.
- **Bring Forward** :- shapes ko dusre object ke aage lane ke liye.
- **Send Backward** :- shapes ko dusre object ke peeche bhejne ke liye.
- **Selection Pane** :- Sabhi objects ki list dikhane aur select/hide karne ke liye.
- **Align** :- Multiple objects ko line me set karne ke liye.
- **Group** :- Multiple objects ko ek saath jodne ke liye.

Multiple object select karne ke baad work karta hai

- **Rotate** :- shapes ko ghumane ya flip karne ke liye.

Chart :- Graph ya chart insert karne ke liye.

Screenshot :- Open windows ka screenshot ya screen clipping insert karne ke liye.

LINKS GROUP

- **Link** :- Selected Text ya object ko kisi dusri file ya source se link karne ke liye.
- **Bookmark** :- important word ko mark karne ke liye, taki uspar asani se pahucha ja sake.
- **Cross-reference** :- Sabhi Heading, bookmarks, table ya objects ko eksath dekhne ke liye or unka link insert karne ke liye.

Comments Group

- **Comment** :- Document me note ya suggestion add karne ke liye.

Header & Footer Group

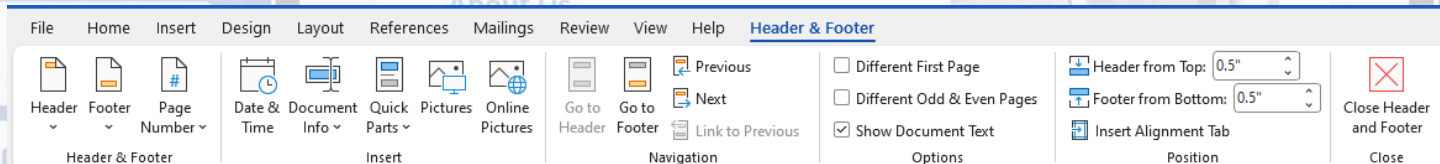

- **Header** :- Jo kuch header open karke insert karte hai vo sabhi pages ke upar show hota hai.
- **Footer** :- Jo kuch header open karke insert karte hai vo sabhi pages ke niche show hota hai.

Header footer me kuch bhi insert kar sakte hai jaise :- table, picture, shapes act.

Header Open :- top margin double click.

Header close :- page ke ander double click

HEADER & FOOTER TAB

- **Header** :- Page ke upar header insert ya edit karne ke liye.
- **Footer** :- Page ke niche footer insert ya edit karne ke liye.
- **Page Number** :- Page par numbering lagane ke liye.

INSERT GROUP

- **Date & Time** :- Current date aur time insert karne ke liye.
- **Document Info** :- Document ki properties jaise author, title etc. insert karne ke liye.
- **Quick Parts** :- Custom header footer ko unki default gallery me add karne ke liye.
- **Pictures** :- Header/Footer me picture insert karne ke liye.
- **Online Pictures** :- Internet se picture insert karne ke liye.

learn computer, control your future

NAVIGATION GROUP

- **Go to Header** :- Header area me jane ke liye.
- **Go to Footer** :- Footer area me jane ke liye.
- **Previous** :- Previous header/footer section par jane ke liye.
- **Next** :- Next header/footer section par jane ke liye.
- **Link to Previous** :- Previous section ke header/footer se connect karne ke liye.

OPTIONS GROUP

- **Different First Page** :- First page ka alag header/footer banane ke liye.
- **Different Odd & Even Pages** :- Odd aur even pages ke liye alag header/footer rakhne ke liye.
- **Show Document Text** :- Header/Footer edit karte waqt main document text show karne ke liye.

POSITION GROUP

- **Header from Top** :- Header ki top se distance set karne ke liye.
- **Footer from Bottom** :- Footer ki bottom se distance set karne ke liye.
- **Insert Alignment Tab** :- Header/Footer me alignment set karne ke liye.

CLOSE GROUP

- **Close Header and Footer** :- Header/Footer mode band karke normal document me wapas aane ke liye.

Page Number :- Pages par automatic numbering lagane ke liye.

TEXT GROUP

- **Text Box** :- Document me movable text box insert karne ke liye.
- **Quick Parts** :- Custom header footer, Tables act. ko unki default gallery me add karne ke liye.

**Select footer, tables act. → quick parts → save selection quick part gallery
→ enter name → select gallery**

- **WordArt** :- Stylish decorative text insert karne ke liye.
- **Drop Cap** :- Paragraph ke first letter ko bada aur decorative banane ke liye.
- **Signature Line** :- Digital signature line insert karne ke liye.
- **Date & Time** :- Current date aur time insert karne ke liye.
- **Object** :- Dusre software se file ya embedded object banakar insert karne ke liye.

DESIGN TAB

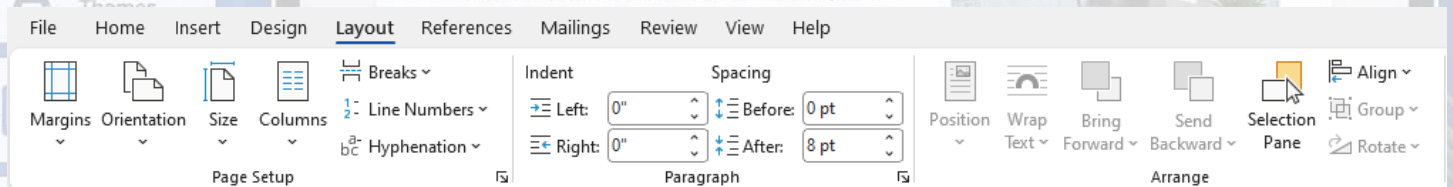

DOCUMENT FORMATTING GROUP

- **Themes** :- Pore document ka ready-made design style apply karne ke liye.
- **Themes Gallery** :- Different ready-made themes choose karne ke liye.
- **More Themes (▼)** :- Aur bhi themes dekhne ke liye.
- **Colors** :- Document me jahan jahan color hai pura change karne ke liye.
- **Fonts** :- Sabhi Headings aur body text ke fonts change karne ke liye.
- **Paragraph Spacing** :- Sabhi Paragraphs ke beech spacing set karne ke liye.
- **Effects** :- Sabhi Shapes aur graphics par visual effects apply karne ke liye.
- **Set as Default** :- Current formatting ko future documents ke liye default banane ke liye.

PAGE BACKGROUND GROUP

- **Watermark** :- Page ke background me halka text/image lagane ke liye.
watermark → custom water mark → choose watermark
- **Page Color** :- Page ka background color change karne ke liye.
- **Page Borders** :- Page ke around border lagane ke liye.

LAYOUT

PAGE SETUP GROUP

- **Margins** :- Page ke charo taraf khaali space set karne ke liye.
- **Orientation** :- Page ko Portrait ya Landscape mode me set karne ke liye.
- **Size** :- Page size change karne ke liye. (A4, Letter etc.)
- **Columns** :- Paragraphs ko 2 ya zyada columns me divide karne ke liye.
- **Breaks** :- Page break, section break ya column break lagane ke liye.

Page Breaks

- **Page** :- Jahan cursor hai wahan se naya page start karne ke liye. (**Ctrl + Enter**)
- **Column** :- Jahan cursor usse next paragraph ko agle column me bhejne ke liye.
- **Text Wrapping** :- Jahan cursor hai wahan se line break karne ke liye. (**Shift + Enter**)

Section Breaks

- **Next Page** :- Jis page ke starting me cursor hai us page se naya section start krne ke liye.
 - **Continuous** :- jis paragraph ke aage cursor he vahan se new section start karne ke liye.
 - **Even Page** :- Even page insert karne ke liye.
 - **Odd Page** :- Odd page insert karne ke liye.
- section bana kar section ke according header & footer, Page border act. Laga satke hai

- **Line Numbers** :- Lines ke side me numbering show karne ke liye.
 - **None** :- Line numbers hataane ke liye.
 - **Continuous** :- Pure document me lagatar line numbers lagane ke liye.
 - **Restart Each Page** :- Har naye page par line numbering dobara 1 se start karne ke liye.
 - **Restart Each Section** :- Har naye section me line numbering dobara 1 se start karne ke liye.
 - **Suppress for Current Paragraph** :- Selected paragraphs ke aage se line numbers hatane ke liye.
- **Hyphenation** :- Long words ko line ke end par hyphen (-) ke saath todne ke liye.

PARAGRAPH GROUP

- **Indent Left** :- Paragraph ko left side se space bhadane ke liye.
- **Indent Right** :- Paragraph ko right side se space bhadane ke liye.
- **Spacing Before** :- Paragraph ke uper space add ke liye.
- **Spacing After** :- Paragraph ke niche space add ke liye.

ARRANGE GROUP

- **Position** :- shapes ki page par fixed position set karne ke liye.
- **Wrap Text** :- shapes ke around text kaise aaye ye set karne ke liye.
 - **In Line with Text** :- shapes ko text ki line ka hissa bana deta hai, jaise ek character.
 - **Square** :- shapes ke chaaro taraf square shape me text aata hai.
 - **Tight** :- shapes ke shape ke close text wrap hota hai.
 - **Through** :- shapes ke irregular shape ke andar-bahar text flow hota hai.
 - **Top and Bottom** :- shapes ke sirf upar aur niche text aata hai.
 - **Behind Text** :- shapes ko text ke peeche bhej deta hai.
 - **In Front of Text** :- shapes ko text ke upar la deta hai.
- **Edit Wrap Points** :- Text wrapping points manually set karne ke liye.
- **Move with Text** :- Text move hone par picture bhi saath move hoti hai.
- **Fix Position on Page** :- shapes ko page par ek fixed jagah lock karne ke liye.
- **More Layout Options** :- Advanced layout aur positioning settings kholne ke liye.

- **Set as Default Layout** :- Current wrap setting ko default banane ke liye.
- **Bring Forward** :- shapes ko dusre object ke aage lane ke liye.
- **Send Backward** :- shapes ko dusre object ke peeche bhejne ke liye.
- **Selection Pane** :- Sabhi objects ki list dikhane aur select/hide karne ke liye.
- **Align** :- Multiple objects ko line me set karne ke liye.
- **Group** :- Multiple objects ko ek saath jodne ke liye.

Multiple object select karne ke baad work karta hai

- **Rotate** :- shapes ko ghumane ya flip karne ke liye.

REFERENCES TAB

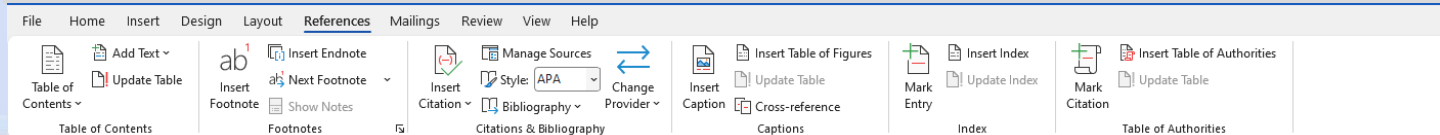

TABLE OF CONTENTS GROUP

- **Table of Contents** :- Headings ka index banana ke liye.
- **Add Text** :- Headings banana ke liye.
- **Update Table** :- Index banana ke baad new Headings index me add karne ke liye.

Jab tak headings nahi banayge index nahi banega

FOOTNOTES GROUP

Word meanings add karne ke liye

- **Insert Footnote** :- Current page ke niche Meanings add karne ke liye.
- **Insert Endnote** :- Document ke end Meanings add karne ke liye.
- **Next Footnote** :- Agle footnote par jane ke liye.
- **Show Notes** :- Footnotes ya endnotes dikhane ke liye.

Jis word ka meaning likhna hai uske last me cursor rakhna hai

CITATIONS & BIBLIOGRAPHY GROUP

- **Insert Citation** :- Document ka bio data banana ke liye .
- **Manage Sources** :- Bio Data edit karne ke liye.
- **Style** :- Citation style choose karne ke liye. (APA, MLA etc.)
- **Bibliography** :- Complete bio data insert karne ke liye.

CAPTIONS GROUP

- **Insert Caption** :- Objects ko mark karne ke liye.
- **Insert Table of Figures** :- Objects ka index insert karne ke liye.

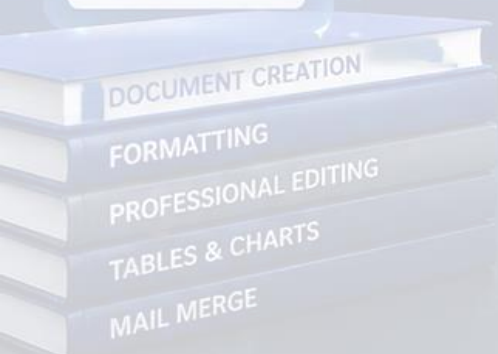

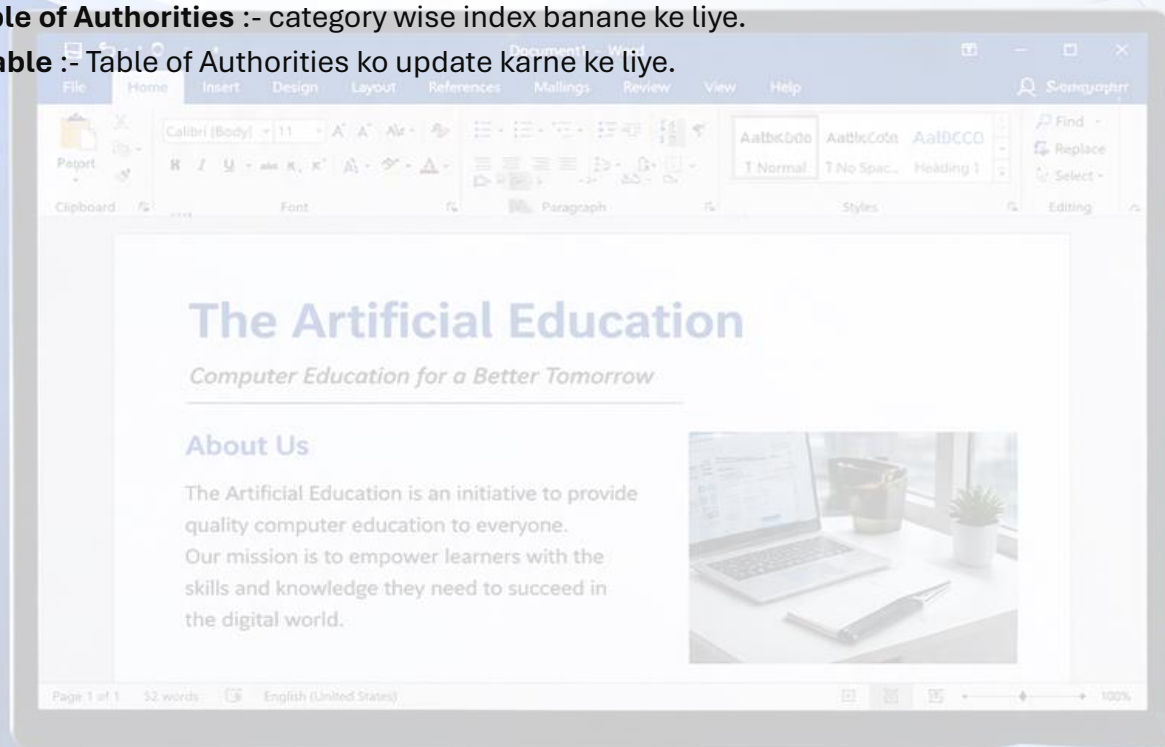

- **Update Table** :- Figures table ko update karne ke liye.
- **Cross-reference** :- Sabhi Heading, bookmarks, table ya objects ko eksath dekhne ke liye or unka link insert karne ke liye.

INDEX GROUP

- **Mark Entry** :- Important words ko mark karne ke liye.
- **Insert Index** :- Important words ka index banane ke liye.
- **Update Index** :- Index ko update karne ke liye.

TABLE OF AUTHORITIES GROUP

- **Mark Citation** :- category wise Text mark karne ke liye
- **Insert Table of Authorities** :- category wise index banane ke liye.
- **Update Table** :- Table of Authorities ko update karne ke liye.

REVIEW TAB

PROOFING GROUP

- **Spelling and Grammar** :- Spelling aur grammar mistakes check karne ke liye.
- **Thesaurus** :- Similar words / synonyms dekhne ke liye.
- **Word Count** :- Document me total words, pages, characters count dekhne ke liye.

SPEECH GROUP

- **Read Aloud** :- Document ko awaaz me sunne ke liye.

ACCESSIBILITY GROUP

- **Check Accessibility** :- document accessibility errors, warning check karne ke liye.

LANGUAGE GROUP

- **Translate** :- Text ko dusri language me translate karne ke liye.
- **Language** :- Proofing language set karne ke liye.

COMMENTS GROUP

- **New Comment** :- Selected text ke liye comment add karne ke liye.
- **Delete** :- Comment delete karne ke liye.
- **Previous** :- Pichhle comment par jane ke liye.
- **Next** :- Agle comment par jane ke liye.
- **Show Comments** :- Sab comments dikhane ke liye.

MARKUP GROUP

- **Filter All Markup** :- Kis type ka markup dikhana hai select karne ke liye.
- **Show Markup** :- Comments, insertions, deletions show/hide karne ke liye.
- **Reviewing Pane** :- Sab changes aur comments ek pane me dikhane ke liye.
(kuch change nahi karna hai)

TRACKING GROUP

- **Track Changes** :- Track changes ko active karne par jo kuch change karege vo highlight hota hai.

- **Accept** :- Changes accept karne ke liye.
- **Reject** :- Changes reject karne ke liye.
- **Previous** :- Previous change par jane ke liye.
- **Next** :- Next change par jane ke liye.

COMPARE GROUP

- **Compare** :- Do documents compare karne ke liye.
(Pahle do documents alag alag save karne padege agar nahi hai to)

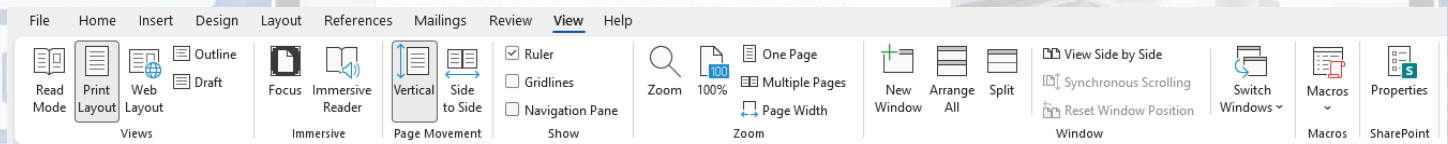

PROTECT GROUP

- **Block Authors** :- Dusre users ko editing se rokne ke liye.
 - **Restrict Editing** :- Formatting & Editing limit ya lock karne ke liye.
- ✓ Agar formatting protect karege to document me kisi parkar ki formatting nahi hogi, jabki kuch bhi add kar sakte hai to delete bhi kar sakte hai.
- ✓ Agar editing protect karege to document me kuch bhi change nahi hoga na hi kuch delete hoga

INK GROUP

- **Hide Ink** :- Draw tab se jo draw kiya hai usko hide or delete karne ke liye.

VIEWS TAB

VIEWS GROUP

- **Read Mode** :- Document ko reading mode me dekhne ke liye.
- **Print Layout** :- Print hone wale format me document dekhne ke liye.
- **Web Layout** :- Web page style me document dekhne ke liye.
- **Outline** :- Heading structure ke form me document dekhne ke liye.
- **Draft** :- Simple editing mode me document dekhne ke liye.

IMMERSIVE GROUP

- **Focus** :- Screen par sirf Page dikhane ke liye.
- **Immersive Reader** :- Easy reading tools ke saath document padhne ke liye.

PAGE MOVEMENT GROUP

- **Vertical** :- Pages ko upar-niche scroll karne ke liye.
- **Side to Side** :- Pages ko left-right swipe/scroll karne ke liye.

SHOW GROUP

- **Ruler** :- Measurement ruler show/hide karne ke liye.
- **Gridlines** :- Alignment ke liye grid lines dikhane ke liye.
- **Navigation Pane** :- Search aur headings pane show karne ke liye.

ZOOM GROUP

- **Zoom** :- Document ko zoom in/out karne ke liye.
- **100%** :- Normal size par lane ke liye.
- **One Page** :- Ek page screen par dikhane ke liye.
- **Multiple Pages** :- Ek saath multiple pages dikhane ke liye.
- **Page Width** :- Page ko screen width ke according fit karne ke liye.

WINDOW GROUP

- **New Window** :- Same document ki nayi window kholne ke liye. (dono aapas me link rahti hai)
- **Arrange All** :- Sabhi open windows arrange karne ke liye.
- **Split** :- Ek document window ko do parts me divide karne ke liye.
- **View Side by Side** :- Do documents saath me compare dekhne ke liye.
- **Synchronous Scrolling** :- Side by side documents ko ek saath scroll karne ke liye. (agar tick hai)
- **Reset Window Position** :- Windows ki position normal karne ke liye.
- **Switch Windows** :- Open documents ke beech switch karne ke liye.

MACROS GROUP

- **Macros** :- Data record karne ke liye

SHAREPOINT GROUP

- **Properties** :- Document properties dekhne ke liye.

MS Word A to Z Shortcut Keys

- **Ctrl + A** :- Select All (Pure document ko select karne ke liye)
- **Ctrl + B** :- Bold (Selected text ko dark/mota karne ke liye)

- # MS Word Complete Notes
- **Ctrl + C** :- Copy (Selected text ya object ki copy karne ke liye)
 - **Ctrl + D** :- Font Dialog Box (Font ki extra settings kholne ke liye)
 - **Ctrl + E** :- Center Align (Paragraph ko beech me lane ke liye)
 - **Ctrl + F** :- Find (Kisi word ya text ko dhoondhne ke liye)
 - **Ctrl + G** :- Go To (Specific page, line ya section par jane ke liye)
 - **Ctrl + H** :- Replace (Ek word ko dusre word se badalne ke liye)
 - **Ctrl + I** :- Italic (Selected text ko tircha karne ke liye)
 - **Ctrl + J** :- Justify (Selected Paragraphs ko dono side se equal set karne ke liye)
 - **Ctrl + K** :- Hyperlink (Selected text ko kisi dusri file ya source se link karne ke liye)
 - **Ctrl + L** :- Left Align (Paragraph ko left side me lane ke liye)
 - **Ctrl + M** :- Increase Indent (Selected Paragraphs ka left margin badhane ke liye)
 - **Ctrl + N** :- New Document (Naya document kholne ke liye)
 - **Ctrl + O** :- Open (Saved document kholne ke liye)
 - **Ctrl + P** :- Print (Document print karne ke liye)
 - **Ctrl + Q** :- Remove Paragraph Formatting (Paragraph formatting hataane ke liye)
 - **Ctrl + R** :- Right Align (Paragraph ko right side me lane ke liye)
 - **Ctrl + S** :- Save (Document save karne ke liye)
 - **Ctrl + T** :- Hanging Indent (Selected Paragraphs ki first line chhode baki lines ka left margin badhane ke liye)
 - **Ctrl + U** :- Underline (Selected text ke niche line lane ke liye)
 - **Ctrl + V** :- Paste (Copied/Cut text chipkane ke liye)
 - **Ctrl + W** :- Close (Current document band karne ke liye)
 - **Ctrl + X** :- Cut (Selected text ko hata kar clipboard me bhejne ke liye)
 - **Ctrl + Y** :- Redo (Undo kiya hua action dobara lane ke liye)
 - **Ctrl + Z** :- Undo (Last action hatane ke liye)

MS Word Extra Shortcut Keys

Font & Formatting

- **Shift + F3** :- Change Case (UPPERCASE, lowercase, Sentence case badalne ke liye)
- **Ctrl + Shift + >** :- Increase Font Size (Selected text ka size badhane ke liye)
- **Ctrl + Shift + <** :- Decrease Font Size (Selected text ka size chhota karne ke liye)
- **Ctrl + Spacebar** :- Clear All Formatting (Selected text ki formatting hataane ke liye)
- **Ctrl + Shift + C** :- Format Copy (Formatting copy karne ke liye)
- **Ctrl + Shift + V** :- Format Paste (Copied formatting apply karne ke liye)
- **Ctrl + =** :- Subscript (Text ko niche chhota likhne ke liye)
- **Ctrl + Shift + +** :- Superscript (Text ko upar chhota likhne ke liye)

learn computer, control your future

Paragraph & Spacing

- **Ctrl + Shift + L** :- Apply Bullets (Bullet list lagane ke liye)
- **Ctrl + 1** :- One Line Space (Single line spacing ke liye)
- **Ctrl + 2** :- Two Line Space (Double line spacing ke liye)
- **Ctrl + 5** :- 1.5 Line Space (1.5 spacing lagane ke liye)
- **Ctrl + 0** :- Paragraph ke upar extra space dene ke liye
- **Ctrl + Shift + 8** :- Show/Hide ¶ (Formatting marks dikhane/chhupane ke liye)

Headings & Styles

- **Alt + Ctrl + 1** :- Apply Heading 1
- **Alt + Ctrl + 2** :- Apply Heading 2
- **Alt + Ctrl + 3** :- Apply Heading 3

Insert Options

- **Ctrl + Enter** :- Page Break (Naya page start karne ke liye)
- **Shift + Enter** :- Line Break (Next line bina naya paragraph ke)
- **Ctrl + Shift + F5** :- Bookmark insert/open karne ke liye
- **Win + Shift + S** :- Screen Clipping / Screenshot area capture karne ke liye
- **PrtScn** :- Full Screen Screenshot lene ke liye

Selection Shortcuts

- **Ctrl + A** :- Pure document ko select karne ke liye
- **Shift + Left-Right Arrow Keys** :- Ek-ek character/text select karne ke liye
- **Ctrl + Shift + Left-Right Arrow Keys** :- Word by word select karne ke liye
- **Shift + Up-Down Arrow Keys** :- Ek-ek Line select karne ke liye
- **Ctrl + Shift + Up-Down Arrow Keys** :- Ek-ek Paragraph select karne ke liye
- **Shift + Home** :- Cursor se line ke start tak select karne ke liye
- **Shift + End** :- Cursor se line ke end tak select karne ke liye
- **Ctrl + Shift + Home** :- Cursor se document start tak select karne ke liye
- **Ctrl + Shift + End** :- Cursor se document end tak select karne ke liye

Mouse Selections

- **Double Click** :- Ek word select karne ke liye
- **Triple Click** :- Pura paragraph select karne ke liye
- **Alt + Drag Mouse** :- Vertical/block text selection ke liye

Multiple Selection / Navigation

- **Ctrl + Click** :- Multiple objects/text select karne ke liye
- **F8** :- Extend Selection mode on karne ke liye
- **Esc** :- Selection mode band karne ke liye

Useful Extras

- **F7** :- Spelling & Grammar Check
- **Shift + F7** :- Thesaurus
- **F12** :- Save As
- **Ctrl + K** :- Hyperlink Insert
- **Alt + Shift + D** :- Current Date insert
- **Alt + Shift + T** :- Current Time insert

MS Word Practical Questions

FILE MENU GROUP QUESTIONS

1. Naya blank document banao.
2. Saved document open karo.
3. Current document save karo.
4. File ko naye naam se Save As karo.
5. File ko PDF me export karo.
6. Print preview dekho aur print command do.
7. Document properties check karo.
8. Current document close karo.

CLIPBOARD GROUP QUESTIONS

9. Ek paragraph copy karke niche paste karo.
10. Ek line cut karke dusri jagah paste karo.
11. Same text ko 5 baar paste karo.
12. Format Painter se heading ka format dusri heading par lagao.
13. Clipboard pane open karke copied items dekho.

FONT GROUP QUESTIONS

14. Selected text Bold karo.
15. Selected text Italic karo.
16. Selected text Underline karo.
17. Font style Arial karo.
18. Font size 18 karo.
19. Font size increase shortcut se badhao.
20. Font size decrease shortcut se kam karo.
21. Text color blue karo.
22. Highlight yellow lagao.
